Portable powerbank JumperKing EK₂

Car jump starter with smart design and strong power.

This is a smart multi-function powerbank which can Self jumpstart the car when car's battery is discharged and also it has wired charging, wireless charging function, and high-speed wireless charging pad function in everyday life.

● Features & Benefits

- Smart design with good grip
- High quality SF matte coating
- Black, gray two colors
- Ultra-light 200g, compact size 143 x 79 X 11mm
- Charging time of this product is about 4 hours 30 minutes

Car Jump start

Mobile phone charging

Emergency flashlight function

Built-in protection circuit

Excellent products of the 2020 Seoul Awards

No Explosion hazard, minimal discharge, safe polymer battery
Built-in protection circuit with stable design

● Portable powerbank that can self-jumpstart discharged car battery

The car jump starter JumperKing EK₂ is for 12V cars, so there is no need to wait for emergency roadside service in case of sudden discharge.

JumperKing EK₂ (Single)

- Specifications : 5400mAh / 12V / 200~400A
- Available vehicles : Gasoline 3300cc or less, Diesel 1500cc or less

JumperKing EK₂ (Double)

- Specification: 10800mAh / 12V / 400~800A
- Available vehicles: Gasoline 6000cc or less, Diesel 2500cc or less, LPG

▶ May differ slightly from vehicle specifications

● High-speed wireless charging/pad portable powerbank

Smart product that supports wireless charging and pad functio

- Charging method : Wired / Wireless / Wired + Wireless / Charging pad
- Input : 5V-2A / USB Output: 5V-2.5A
- High-speed wireless output : up to 5V-1.5A / general wireless output: 5V-1A
- Smartphone charging within about an hour
- Charging method : Wired & wireless charging
(May differ slightly from Smartphone specifications)

Surprisingly compact Mini size, Car jump starter & powerbank

● LED flash portable powerbank useful for emergency situations

In everyday life, travel and camping, emergency situations, you can get help by using flash, emergency flasher, SOS signal.

- Up to 72 hours (3 days) can be used with SOS signal
- For flash function, touch the power button twice quickly
- Various usage examples- Smartphone charging within about an hour

● Various usage examples

When battery discharge

At a cafe

During a long business trip

When camping
