Blind spot cameras EXVIEW

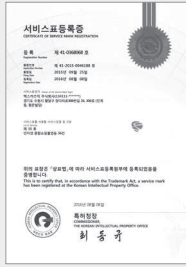

[Patent and Award]

1606 Service mark registration

1607 Trademark registration in Vietnam

1608 Service mark registration

1701 Design registration

1704 Service mark registration

1708 Service mark registration

1709 Overseas utility model registration

1709 Service mark registration

1712 Design registration

1712 Gyeonggi-do Export Frontier Company Certification

1808 Utility model registration

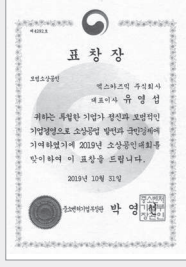

1812 Trademark registration

1901 Utility model registration

1906 Patent registration

1910 Awarded by Minister of Venture Business

2003 Seoul Awards Excellent Product Certification

2003 Patent registration

2005 Patent registration

[Certification]

1406 Jumper King UL Certification

1510 Certificate of conformity registration for KC broadcasting and communication equipment

1511 KC Electromagnetic Compatibility Certificate

1512 KC Electromagnetic Compatibility Certificate

1604 KC Electrical Safety Certificate

1607 CE Certification

1607 FCC certification

1705 KC Electromagnetic Compatibility Certificate

1705 KC Electromagnetic Compatibility Certificate

1707 Certificate of conformity registration for KC broadcasting and communication equipment

1707 Certificate of conformity registration for KC broadcasting and communication equipment

1712 Export Company Certification

1805 Quality Management System Certification

1808 Japanese PSE certification

1812 Certificate of conformity registration for KC broadcasting and communication equipment

1905 CE certification

1907 KC Electrical Safety Certificate

1908 Test Report

Patent-Certification

Blind spot cameras EXVIEW

Prevent accidents by checking blind spots causing accidents in real time.

● Features & Benefits

Patent registration, KC safety certification

Domestic only DC5V (USB) power supply method

- Super Simple installation
- 24-hour operation (no heat generation)
- Using current below 0.43A (minimum usage of car battery)
- Using Power is very convenient (power bank or portable charger (USB type))

Perfect solution for blind spots

- Securing blind spot visibility with angle of view up to 120°
- Secure view of vehicle side/rear/front safely
- Used as rear-view mirrors for wheelchairs, two-wheeled vehicles, and electric kickboards, etc

Angle of view up to 120°

4.3inch monitor

IP67

DC 5V USB

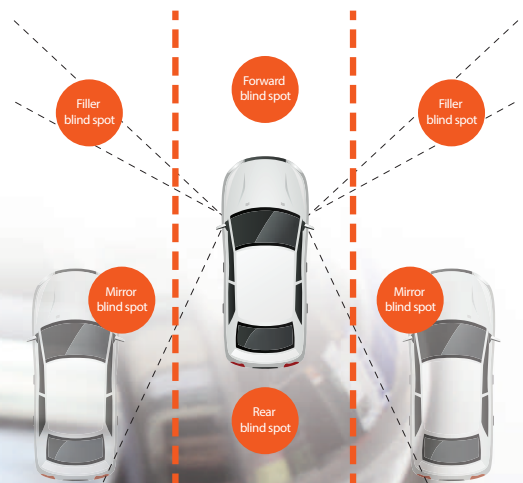

0.43A

● The number of car's blind spots are six.

Angles at which the vehicle or obstacles in the driver's blind spot become invisible.

On a rainy day, during night driving, parallel and rear parking, EXVIEW camera shows the blind spot well.

● Installation in various places

EXVIEW is new concept camera. It can be installed in various places that need to check the situation inside and outside to monitor in real time.

Cars/ Taxis

Forklifts and other heavy equipment

Children attending school vehicles

Kickboards , Bicycle rears

Electric wheelchair rears

Outside of the home

check the presence of courier

Baby room

Smoking area/parking lot

Warehouse, store

SBS 생생경제 정보특특
